

ENPOWER DATA SPACE

POWER IN OUR HANDS

Trusted Data Exchange for Smarter Energy Communities

THE CHALLENGE

Fragmented Data

Different systems store data in a different way

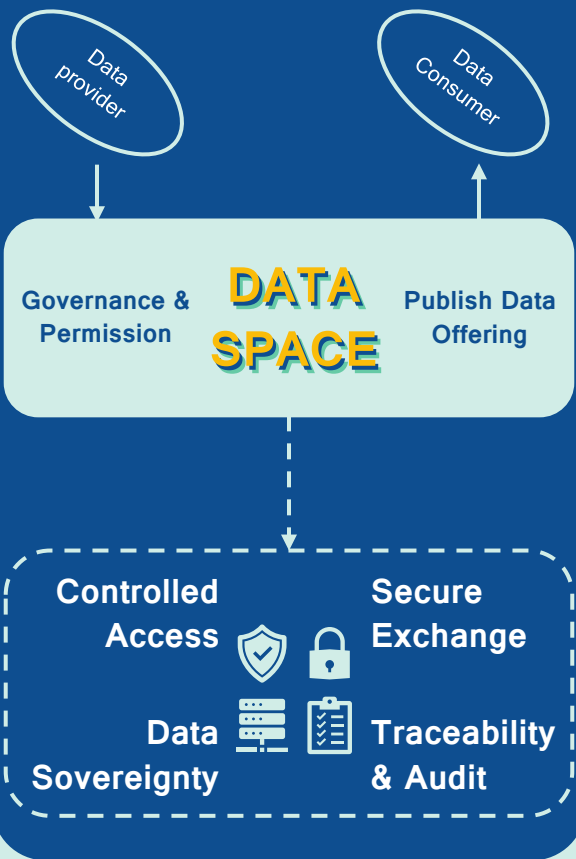

Limited Trust

Users hesitate to share sensitive information

Complex Integration

Every new connection requires custom work

THE SOLUTION

THE RESULT

Faster Integration

Reuse the exchange workflow across projects

Trusted Collaboration

Users share data while keeping control and sovereignty

Semantic Interoperability

Data become usable across different systems

Market Ready

Enables flexibility services and future energy marketplace

HOW IT WORKS

Publish Data Offering | Subscription Request | Approval by Provider | Secure Data Transfer | Traceability & Monitoring

SCHEMATIC OVERVIEW
